Effect of an Equalized Tax Rate on the FY23 Projected Revenue

- Lowering the rate for the June 2023 collection will reduce the revenue projected for FY23 by \$267,039.
- Rather than what is often referred to as a “windfall”, there will be a small shortfall.
- Other revenues will make up for the difference so that the County’s total projected revenues will make budget.

Personal Property Tax

- Used vehicle values have dropped in ½ from the 30% inflated rate last year.
- The FY23 budget accounted for the lower rate for the first payment which occurred in June 2022.
- Without an increase this June, the revenue collection in FY23 will make budget, but not increase fund balance as it did in the past.
- The \$2.95 original tax rate needs to be reinstated to not fall short of revenues in FY24 and to help offset budget needs.
- Surrounding localities that provided rebates or only charged a percentage of the tax rate in FY23 have expressed that they are also making adjustments in their FY24 budgets.
- Reinstating the Personal Property Tax rate and greater use of Fund Balance eliminated the need for a Real Estate Tax increase in the proposed budget.

Compensation

Cost of Living Adjustments (COLA)

- It is anticipated that the State's final budget will include a 7% COLA (Cost of Living Adjustment) for SOQ (Standards of Quality) Education staff and State employees.
- The proposed budget includes a 5% COLA for County employees and a 7% for law enforcement and corrections.
- The School Superintendent proposed a 7% increase for teachers and paraprofessionals. Local funding would address the non-SOQ employees. Custodians, Cafeteria Workers, Bus Assistants, who recently received a wage increase are slated to receive a 2% COLA
- The cost for the proposed County COLA, including the Sheriff's Department 7% rate is:
 - GF, Mosquito Control and Social Services - \$1,233,195
 - Utilities - \$87,078
