

- ❖ DEQ: Permit application fees required for Virginia Water Protection permits – while detailed in 9VAC25-20 – are conveyed to the applicant by the applicable DEQ office (<http://www.deq.virginia.gov/Locations.aspx>). Complete the Permit Application Fee Form and submit it per the instructions to the address listed on the form. Instructions for submitting any other fees will be provided to the applicant by DEQ staff.
- ❖ VMRC: An application fee of \$300 may be required for projects impacting tidal wetlands, beaches and/or dunes when VMRC acts as the LWB. VMRC will notify the applicant in writing if the fee is required. Permit fees involving subaqueous lands are \$25.00 for projects costing \$10,000 or less and \$100 for projects costing more than \$10,000. Royalties may also be required for some projects. The proper permit fee and any required royalty is paid at the time of permit issuance by VMRC. VMRC staff will send the permittee a letter notifying him/her of the proper permit fees and submittal requirements.
- ❖ LWB: Permit fees vary by locality. Contact the LWB for your project area or their website for fee information and submittal requirements. Contact information for LWBs may be found at http://ccrm.vims.edu/permits_web/guidance/local_wetlands_boards.html.

State Corporation Commission Name and ID Number (if applicable) _____

* If multiple applicants, property owners, and/or agents, each must be listed and each must sign the applicant signature page.

4. Provide a detailed description of the project in the space below, including the type of project, its dimensions, materials, and method of construction. Be sure to include how the construction site will be accessed and whether tree clearing and/or grading will be required, including the total acreage. If the project requires pilings, please be sure to include the total number, type (e.g. wood, steel, etc), diameter, and method of installation (e.g. hammer, vibratory, jetted, etc). If additional space is needed, provide a separate sheet of paper with the project description.

CONSTRUCT A 48' TIMBER GROIN, A 27' TIMBER GROIN, AND A 73' TIMBER BULKHEAD.

SITE TO BE ACCESSED FROM THE UPLAND.

NO TREE CLEARING AND/OR GRADING REQUIRED.

20 TREATED-TIMBER PILES, NO GREATER THAN 12-INCH DIAMETER, TO BE INSTALLED WITH A VIBRATORY HAMMER.

Part 1 - General Information (continued)

5. Have you obtained a contractor for the project? ☒ Yes* ☐ No. *If your answer is "Yes" complete the remainder of this question and submit the Applicant's and Contractor's Acknowledgment Form (enclosed)

Contractor's name* and complete mailing address:

STEPHEN FIELD
FFL CUSTOMS, LLC
P. O. BOX 2382
GLOUCESTER, VA 23061

Contact Information:

Home () _____
Work () _____
Fax () _____
Cell (804) 815 - 1394
email sfield8769@gmail.com

State Corporation Commission Name and ID Number (if applicable) _____

*** If multiple contractors, each must be listed and each must sign the applicant signature page.**

6. List the name, address and telephone number of the newspaper having general circulation in the area of the project. Failure to complete this question may delay local and State processing.

Name and complete mailing address:
GLO-MATHEWS GAZETTE-JOURNAL
6625 MAIN STREET
GLOUCESTER, VA 23061

Telephone number
(804) 693 - 3101

7. Give the following project location information:

Street Address (911 address if available) 6173 JARVIS POINT LANE

Lot/Block/Parcel# 34 - 205 RPC = 17671

Subdivision WARE NECK

City / County GLOUCESTER

ZIP Code 23061

Latitude and Longitude at Center Point of Project Site (Decimal Degrees):

37.381085 / - 76.447080 (Example: 36.41600/-76.30733)

If the project is located in a rural area, please provide driving directions giving distances from the best and nearest visible landmarks or major intersections. *Note: if the project is in an undeveloped subdivision or property, clearly stake and identify property lines and location of the proposed project. A supplemental map showing how the property is to be subdivided should also be provided.*

8. What are the *primary and secondary purposes of and the need for* the project? For example, the primary purpose may be "to protect property from erosion due to boat wakes" and the secondary purpose may be "to provide safer access to a pier."

PRIMARY PURPOSE IS TO MINIMIZE SHORELINE EROSION.

SECONDARY PURPOSE IS TO BUILD UP THE BEACH.

THE NEED IS THE SHORELINE IS ERODING AND THE PREVIOUSLY-PROPOSED LIVING SHORELINE WAS NOT SUPPORTED BY VMRC DUE TO THE PRESENCE OF SAV.

Part 1 - General Information (continued)

9. Proposed use (check one):
☒ Single user (private, non-commercial, residential)
☐ Multi-user (community, commercial, industrial, government)
10. Describe alternatives considered and the measures that will be taken to avoid and minimize impacts, to the maximum extent practicable, to wetlands, surface waters, submerged lands, and buffer areas associated with any disturbance (clearing, grading, excavating) during and after project construction. *Please be advised that unavoidable losses of tidal wetlands and/or aquatic resources may require compensatory mitigation.*
APPLIED FOR A LIVING SHORELINE PERMIT WITH TWO BREAKWATERS AND BEACH NOURISHMENT.
PROJECT WAS NOT SUPPORTED BY VMRC DUE TO THE PRESENCE OF SAV.
11. Is this application being submitted for after-the-fact authorization for work which has already begun or been completed? ☐ Yes ☒ No. If yes, be sure to clearly depict the portions of the project which are already complete in the project drawings.
12. Approximate cost of the entire project (materials, labor, etc.): \$ > \$10,000 AND < \$100,000
Approximate cost of that portion of the project that is channelward of mean low water:
\$ SAME
13. Completion date of the proposed work: ASAP ONCE AUTHORIZED. -
14. Adjacent Property Owner Information: List the name and complete mailing address, including zip code, of each adjacent property owner to the project. (NOTE: If you own the adjacent lot, provide the requested information for the first adjacent parcel beyond your property line.) Failure to provide this information may result in a delay in the processing of your application by VMRC.

Part 2 - Signatures

1. Applicants and property owners (if different from applicant).

NOTE: REQUIRED FOR ALL PROJECTS

PRIVACY ACT STATEMENT: The Department of the Army permit program is authorized by Section 16 of the Rivers and Harbors Act of 1899, Section 404 of the Clean Water Act, and Section 103 of the Marine Protection Research and Sanctuaries Act of 1972. These laws require that individuals obtain permits that authorize structures and work in or affecting navigable waters of the United States, the discharge of dredged or fill material into waters of the United States, and the transportation of dredged material for the purpose of dumping it into ocean waters prior to undertaking the activity. Information provided in the Joint Permit Application will be used in the permit review process and is a matter of public record once the application is filed. Disclosure of the requested information is voluntary, but it may not be possible to evaluate the permit application or to issue a permit if the information requested is not provided.

CERTIFICATION: I am hereby applying for all permits typically issued by the DPO, VABOC, USACE, and/or Local Workforce Boards for the activities I have described herein. I agree to show the duly authorized representatives of any regulatory or advisory agency to enter upon the premises of the project site at reasonable times to inspect and photograph site conditions, both in reviewing a proposal to issue a permit and after permit issuance to determine compliance with the permit.

In addition, I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

3. Applicant's having contractors (if applicable)

CONTRACTOR ACKNOWLEDGEMENT

I (we), JC & SM FRENCH, have contracted STEPHEN FIELD
(Applicant's legal name(s)) (Contractor's name(s))

to perform the work described in this Joint Permit Application, signed and dated 2-27-25.

We will read and abide by all conditions set forth in all Federal, State and Local permits as required for this project. We understand that failure to follow the conditions of the permits may constitute a violation of applicable Federal, state and local statutes and that we will be liable for any civil and/or criminal penalties imposed by these statutes. In addition, we agree to make available a copy of any permit to any regulatory representative visiting the project to ensure permit compliance. If we fail to provide the applicable permit upon request, we understand that the representative will have the option of stopping our operation until it has been determined that we have a properly signed and executed permit and are in full compliance with all terms and conditions.

Part 3 – Appendices (continued)

Appendix B: Projects for Shoreline Stabilization in tidal wetlands, tidal waters and dunes/beaches including riprap revetments and associated backfill, marsh toe stabilization, bulkheads and associated backfill, breakwaters, beach nourishment, groins, jetties, and living shoreline projects. Answer all questions that apply. Please provide any reports provided from the Shoreline Erosion Advisory Service or VIMS.

NOTE: It is the policy of the Commonwealth that living shorelines are the preferred alternative for stabilizing tidal shorelines (Va. Code § 28.2-104.1). Information on non-structural, vegetative alternatives (i.e., Living Shoreline) for shoreline stabilization is available at http://ccrm.vims.edu/coastal_zone/living_shorelines/index.html.

1. Describe each revetment, bulkhead, marsh toe, breakwater, groin, jetty, other structure, or living shoreline project separately in the space below. Include the overall length in linear feet, the amount of impacts in acres, and volume of associated backfill below mean high water and/or ordinary high water in cubic yards, as applicable:

CONSTRUCT A 48' TIMBER GROIN, A 27' TIMBER GROIN, AND A 73' TIMBER BULKHEAD.

2. What is the maximum encroachment channelward of mean high water? 48 feet.
Channelward of mean low water? 24 feet.
Channelward of the back edge of the dune or beach? N/A feet.
3. Please calculate the square footage of encroachment over:
- | | |
|--------------------------|------------------------|
| • Vegetated wetlands | <u>0</u> square feet |
| • Non-vegetated wetlands | <u>42</u> square feet |
| • Subaqueous bottom | <u>25</u> square feet |
| • Dune and/or beach | <u>N/A</u> square feet |
- Handwritten calculations:
- $$\begin{array}{r} 74 \times 0.5 = 37 \\ 9 \times 0.5 = 4.5 \\ \hline 42 \end{array}$$
- $$\begin{array}{r} 27 \times 0.5 = 13.5 \\ 22 \times 0.5 = 11 \\ \hline 25 \end{array}$$
4. For bulkheads, is any part of the project maintenance or replacement of a previously authorized, currently serviceable, existing structure? Yes X No.

If yes, will the construction of the new bulkhead be no further than two (2) feet channelward of the existing bulkhead? Yes No.

If no, please provide an explanation for the purpose and need for the additional encroachment.

THE BULKHEAD IS PROPOSED AT THE BASE/TOE OF THE ERODING BANK WITH MINIMAL ENCROACHMENT.

Part 3 – Appendices (continued)

5. Describe the type of construction and all materials to be used, including source of backfill material, if applicable (e.g., vinyl sheet-pile bulkhead, timber stringers and butt piles, 100% sand backfill from upland source; broken concrete core material with Class II quarry stone armor over filter cloth).

NOTE: Drawings must include construction details, including dimensions, design and all materials, including fittings if used.

**TREATED-TIMBER SHEETING, STRINGERS, DEAD MEN, BUTT PILES AND CAP.
ALL H.D.G. TIE RODS AND HARDWARE.
100% SAND BACKFILL FROM AN UPLAND SOURCE.**

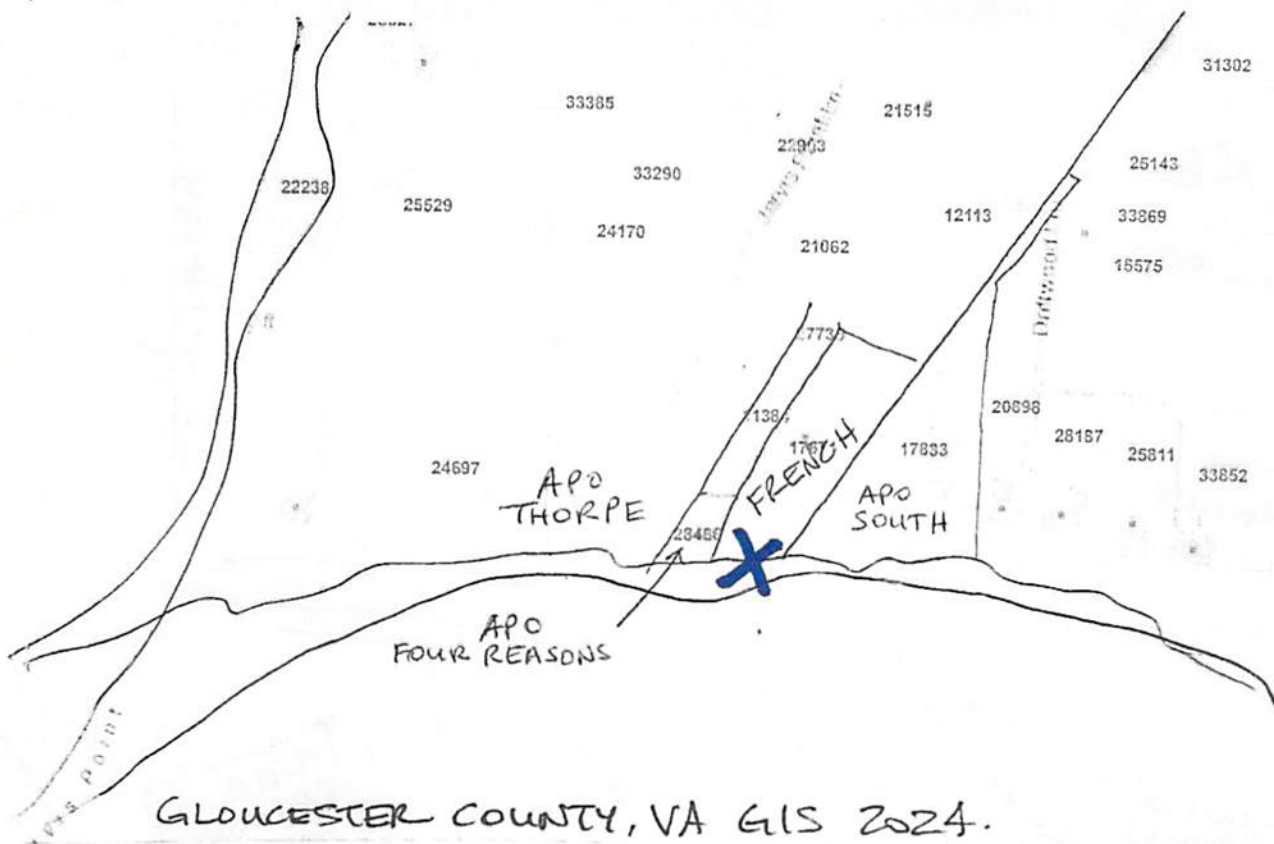

- ~~6~~ If using stone, broken concrete, etc. for your structure(s), what is the average weight of the:
 Core (inner layer) material _____ pounds per stone Class size _____
 Armor (outer layer) material _____ pounds per stone Class size _____

- X For beach nourishment, including that associated with breakwaters, groins or other structures, provide the following:**

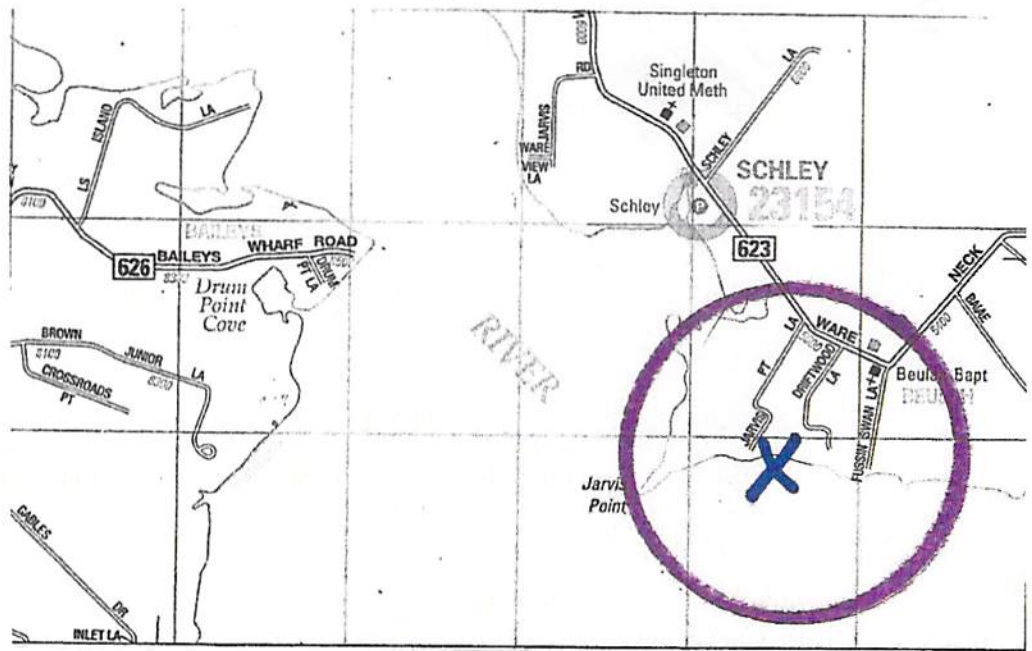

- Volume of material
 - _____ cubic yards channelward of mean low water
 - _____ cubic yards landward of mean low water
 - _____ cubic yards channelward of mean high water
 - _____ cubic yards landward of mean high water

 - Area to be covered
 - _____ square feet channelward of mean low water
 - _____ square feet landward of mean low water
 - _____ square feet channelward of mean high water
 - _____ square feet landward of mean high water

 - Source of material, composition (e.g. 90% sand, 10% clay): _____
 - Method of transportation and placement: _____
-
- Describe any proposed vegetative stabilization measures to be used, including planting schedule, spacing, monitoring, etc. Additional guidance is available at <http://www.vims.edu/about/search/index.php?q=planting+guidelines>:

Treated-timber sheeting w/ drain holes every 6' and minimum 50% sheet penetration.

Bulkhead shall be constructed at the toe of the eroding bank. PVC pipes indicate proposed bulkhead alignment.

Filter cloth w/ clean sand backfill.

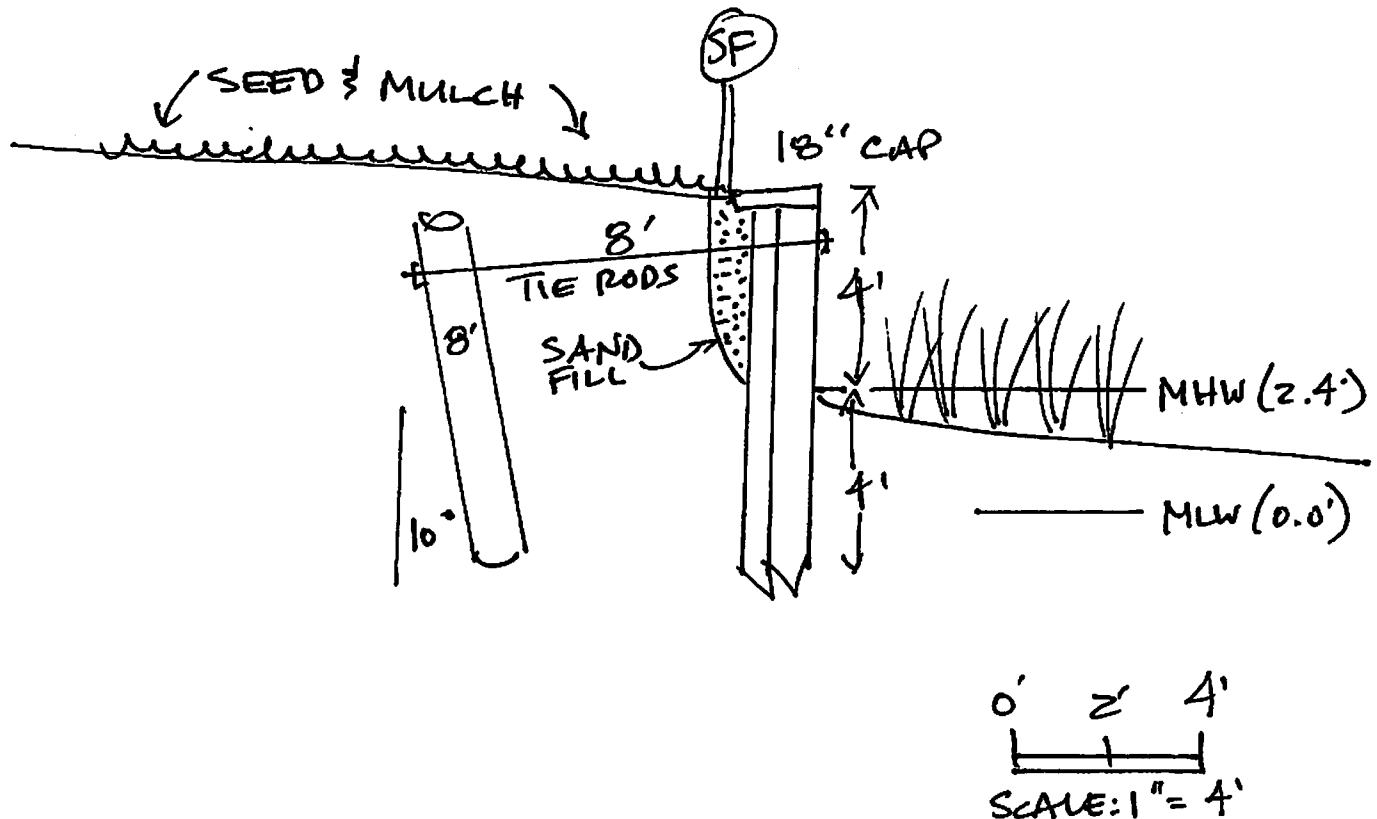

$\frac{3}{4}$ " x 10' H.D.G. tie rods to 8" butt piles every 5'.

$\frac{3}{8}$ " lags to fasten sheeting to whalers and backing boards, 2" x 18" cap fastened with 3" screws.

All lumber treated, all hardware H.D.G.

A silt fence shall be installed and maintained at the landward edge of the bulkhead until a complete vegetative cover is established.

All denuded and sparsely vegetated areas shall be seeded with an appropriate seasonal seed mixture and strawed/matted.

Note: Mid-Atlantic Resource Consulting is responsible only for applying to obtain local wetland, Virginia Marine Resources Commission and U.S. Army Corps of Engineers permits. Mid-Atlantic Resource Consulting is not responsible for any land disturbing activities or construction activities associated with the project.
