AGENDA TITLE: Resolution to Approve Memorandum of Agreement for Oyster Shell Recycling Program at the Old Page Site

BACKGROUND / SUMMARY: As the Board heard at its May 21, 2024, meeting, the County was contacted by the Chesapeake Bay Foundation (CBF) with a request to host an oyster shell recycling bin at the old Page site. The Chesapeake Bay Foundation’s Oyster Recycling program encourages local restaurants and oyster growers to recycle their oyster shells following patrons’ consumption. This supports oyster restoration efforts in Chesapeake Bay tributaries like the York River. There is an asphalt area outside of the utility yard that could allow for placement of a bin and vehicular access without impact to county operations.

After the Board’s agreement to consider this use, Administration with the assistance of the County Attorney prepared a draft memorandum of agreement with CBF. The agreement indicates the responsibilities of both parties and provides that if the County sells or leases the property in the future, CBF will remove the bin and restore the property to its original condition.
