AGENDA TITLE: Fixed Radar Program in School Zones

BACKGROUND / SUMMARY: For many months, we have been exploring the options for adding fixed mounted radars in school zones. Altumint set up temporary systems at Petsworth Elementary and Achilles Elementary Schools at the request of the Sheriff's Office and provided us with data that shows that we have many vehicles speeding through our school zones in the mornings and afternoons. State Code section 46.2-882.1 authorizes the use of photo speed monitoring devices in school crossing zones. A copy of a proposed contract with Altumint, Inc. is attached for consideration.
